DETAILED ACTION

Election/Restrictions

1. Applicant's election with traverse of claims 1-17 in the reply filed on 07/06/04 is acknowledged. The traversal is on the ground(s) that the two restricted invention are not independent and patentable distinct. This is not found persuasive because the process claims introduce more limitations.

2. The requirement is still deemed proper and is therefore made FINAL.

3. This application contains claims 18-27 drawn to an invention nonelected with traverse. A complete reply to the final rejection must include cancellation of nonelected claims or other appropriate action (37 CFR 1.144) See MPEP § 821.01.

Claim Rejections - 35 USC § 102

4. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

Art Unit: 1713

(a) the invention was known or used by others in this country, or patented or described in a printed publication in this or a foreign country, before the invention thereof by the applicant for a patent.

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

5. Claims 1-17 are rejected under 35 U.S.C. 102(a) as being anticipated by Kato et al., EP 1 016 741 A1. See Example 1.

6. Claims 1-17 are rejected under 35 U.S.C. 102(b) as being anticipated by Ridland et al., WO 99/28033. See Examples 1 & 3.
